

INSTRUCTIONS

Choose which cardboard you want to use. Fold the card you have chosen in half. This will be for your elephant shape.

Draw the shape of half your elephant on the fold of the paper. Don't worry if it looks funny - it will make sense when you open it up.

Very carefully cut the shape of your elephant out, remembering to hold the pieces together while you are cutting.

Open your piece of paper and you will see your elephant. Now draw your eyes, ears, toes and nostrils with a black permanent marker pen.

Paint and decorate your elephant in fun colours. Anything you like!

Get a paper cup and make a hole near the bottom on one side. Use some wool and cut some lengths. Knot them together on one side and trim the loose ends.

Hold the pieces of wool together and from the inside of the cup push the ends through the hole. The knot will keep it in place. This is your elephant's tail.

Use your glue stick and cover your pot where the elephant is going to go. Wrap your elephant around the cup. Rub it well so it sticks. Let dry.

Bend the ears and trunk forward. You now have your elephant!

You can also make ...

A SNAKE...

Can you find a toilet roll and carefully cut the end along the diagonal seam line. Don't cut too far, just enough to be able to hold the end and pull.

Carefully pull the cut end and unravel the cardboard until it is completely opened and looks like a snake. Paint and decorate it any way you like.

Cut out a "V" shape on either side of the face. Draw on some eyes and make a wiggly coloured tongue. Glue your tongue to the front.

A SEA CREATURE...

Take the inside of a toilet roll paint the whole thing any colour you like. With a permanent marker draw some scales and a nice big eyes and colour them in.

Choose some coloured card and very carefully cut out some triangular shapes with scissors. Keep the left over card for another project.

Glue your paper triangles to the inside of your loo roll. Let it dry. Maybe you want to hang your creature, so you could tie some string to the top!

A SPIDER...

Can you find another container at home? A yogurt pot? Draw lines all the way round but leave a gap on one side.

Don't draw your lines all the way to the bottom leave a space. Then carefully cut along your lines - remember not all the way down.

Put the cut container on a flat surface and squish it down gently so the legs spread outwards.

Carefully with your scissors round off the edges of your big piece. This will be the spiders head.

Add some big black eyes and decorate your spider with your permanent markers.

Well done. Enjoy your animal safari!

ART KIT

Teacher's Comment:

Use the animals created as toys on their own.

To play with, as decorations, or even make a theatre puppet show for others using the animals to tell a story.

Teacher's Skills:

Three dimensional modelling, drawing,
cutting, sticking, painting, design
and play.

Try
making
other animals.

- A snake
- A spider
- A sea creature
- A frog
- And maybe some trees.

Share on
FACEBOOK!
Share your awesome artwork
on our facebook gallery
@studiomerakibristol
and see what others
have been
up to!

PLAY!

Have fun creating a story
around your animals
and put on a show
for your family!
